

# Tugas 5 Enterprise Development Software

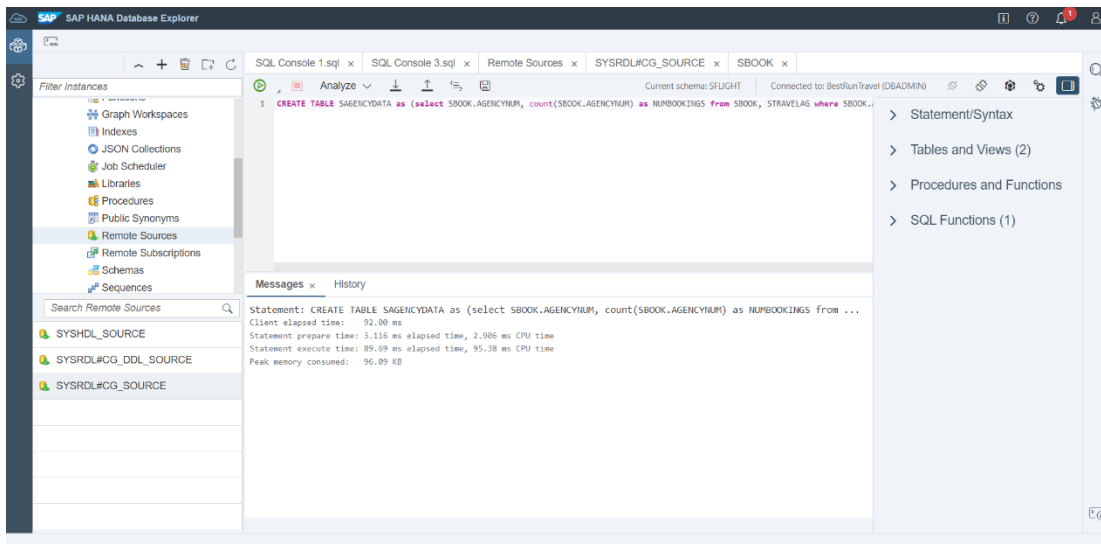

Nama : Dominique Ametha

NIM : 201402076

Kelas: KOM – A

## MODULE 5

- Membuat tabel baru
- Mengimpor data
- Menggabungkan tabel
- Mengekstrak data tertentu dari tabel

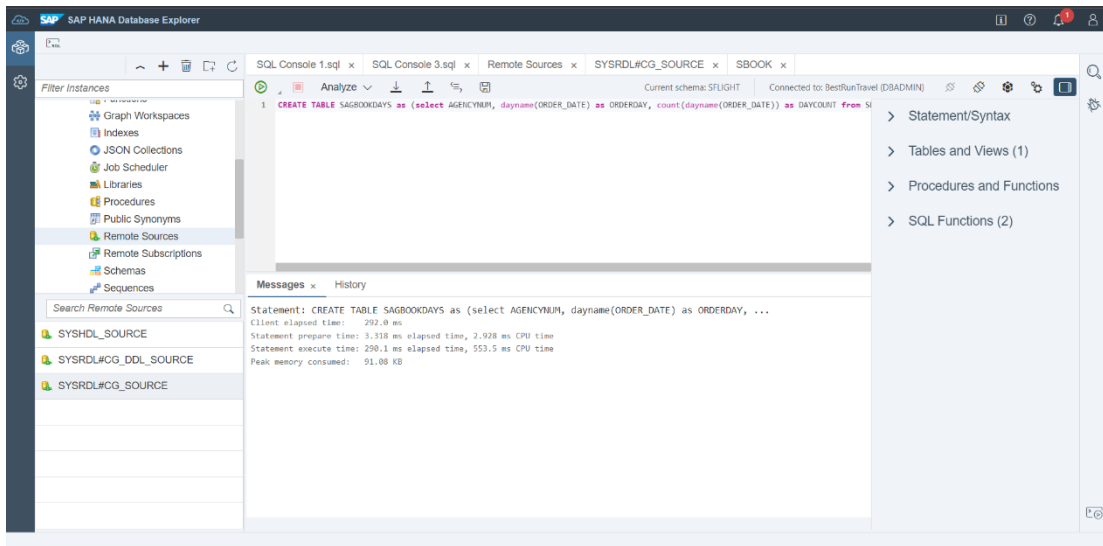

Membuat tabel SAGENCYDATA

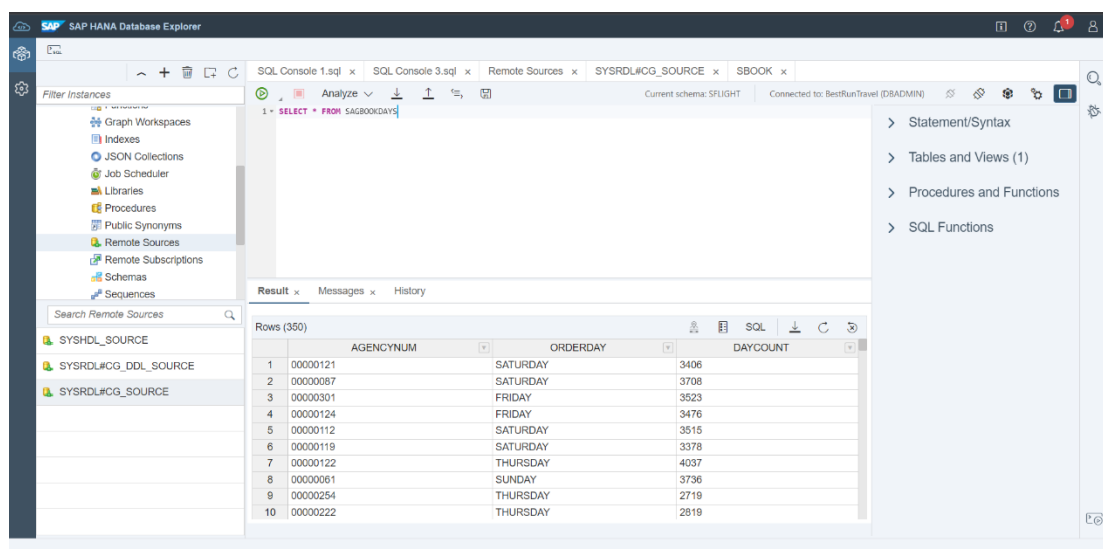

The screenshot shows the SAP HANA Database Explorer interface with the SQL Console displaying the query: `SELECT * FROM SAGENCYDATA`. The Results pane shows the data in the SAGENCYDATA table:

Rows	AGENCYNUM	NUMBOOKINGS
1	00000284	27870
2	00000122	27869
3	00000109	27867
4	00000101	27866
5	00000118	27416
6	00000087	25936
7	00000061	25935
8	00000113	24459
9	00000093	24458
10	00000104	24458
